

Before you start measuring - PLEASE READ

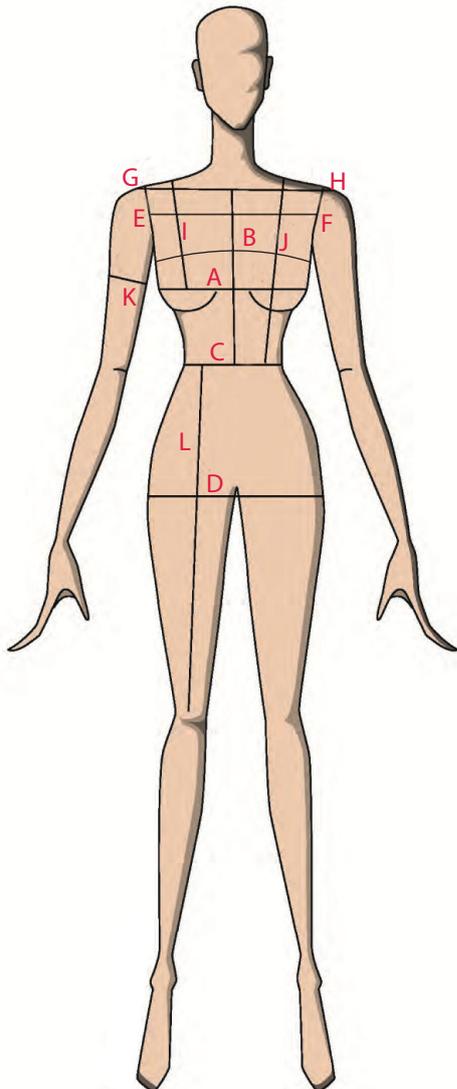

- Tie a piece of **thin elastic** around your **waist** and where it sits comfortably that will be your natural waistline. The waistline is usually the thinnest part of your body.
- **Don't make measurements too tight**....just firm enough so the tape measure can slide easily.
- You'll need someone to help you out with some of the measurements.
- Please wear the **bra you'll be wearing with your dress** when you take your measurements. Different bras do make a big difference with your measurements.

Name: _____

Size you normally wear: _____

Neckline shape: Front _____ Back _____

Neckline depth: Front _____ Back _____

A - BUST - measure around the fullest part of your bust.

B - UPPER BUST - measure around above your bust going close under your armpits.

C - WAIST - measure around the waist where the elastic is tied.

D - HIP - measure around the fullest part of your hip.

E to F - ACROSS CHEST - put a t-shirt on with a set-in sleeve and measure from one armhole seam to the other at the chest level.

G to H - SHOULDER POINT TO SHOULDER POINT - measure from the tip of one shoulder to the tip of the other shoulder. The tape measure will go across the bottom of your neck.

I - SHOULDER TO NIPPLE - measure from the shoulder seam down to the nipple.

J - FRONT LENGTH - measure from your shoulder seam down to the elastic at the waist, going over the bust.

K - TOP ARM - measure the fullest part of your upper arm.

L - SKIRT LENGTH - measure from the elastic at your waist down to the desired length of the skirt.

ACROSS BACK - with your t-shirt on measure from one armhole seam to the other across your upper back.

BACK LENGTH - measure from the nape of your back neck (where your necklace sits) down to the elastic at the waist.
